1 San Francisco collectively spent in excess of \$44,000,000-\$24,792,558 removing litter from the
2 sidewalks, gutters and outdoor public spaces of San Francisco.

3 (eb) According to the 2009 audit of the composition of street and sidewalk litter conducted by
4 MGM Management, cigarette butts and related packaging litter constitute 25% of all such litter thereby
5 accounting for nearly \$11,000,000-\$6,098,969 of the City's annual litter removal costs.

6 (ec) In 2009, Health Economics Consulting Group conducted a report on the cost of tobacco
7 cigarette litter to the City of San Francisco and calculated a maximum permissible fee per pack of
8 cigarettes that offsets to offset the City's costs of abating tobacco cigarette litter abatement
9 costs. The report is on file with the Clerk of the Board of Supervisors in File No. 090724 and
10 is incorporated herein by reference. It concludes that a fee of up to \$.033-0.22 per pack of cigarettes
11 sold in San Francisco may be imposed to offset the City's tobacco-cigarette litter abatement costs.

12 (ed) In addition to the aesthetic degradation that results from litter generally, cigarette litter
13 uniquely damages the environment. The smoked filter and leftover tobacco from smoked cigarettes
14 butts contain a variety of toxic organic compounds and heavy metals that can cause toxicity in the
15 marine environment. Standard Acute Aquatic Toxicity tests conducted by Dr. Richard Gersberg, Ph.D.
16 at San Diego State University have determined that the Lethal Concentration that kills 50% of both
17 freshwater Flat Head Minnows and saltwater Smelt in a 96 hour period (commonly referred to as the
18 LC50) occurs in a solution of just one smoked cigarette butt in approximately a one liter bucket of
19 water.

20 (fe) This Ordinance establishes the Cigarette Litter Abatement Fee that will provide revenue to
21 mitigate the City's annual costs of abating the nuisance that cigarette butts and other cigarette
22 related litter causes.

23 (gf) Imposing a litter impact fee directly on the cigarette purchaser at the point of sale for
24 each pack of cigarettes sold in the City at the point of sale is the most practical and equitable
25

1 revenue mechanism to recover the public expense required to abate cigarette litter. The fee is
2 imposed at the point of sale in order to collect the litter impact fee directly from the purchaser.

3 (hg) The Cigarette Litter Abatement Fee will also mitigate support public efforts to curb
4 improper cigarette litter disposal behavior by funding anti-cigarette litter education, and will provide
5 the revenue required to administer this Ordinance, including but not limited to, costs for collecting,
6 processing the fees and process and enforcing compliance with the Cigarette Litter Abatement
7 Fees requirement.
