(SAN FRANCISCO SOLID WASTE MANAGEMENT PROGRAM)

AUTHORIZING THE CITY ADMINISTRATOR TO RETROACTIVELY, "ACCEPT AND EXPEND" A GRANT IN THE AMOUNT OF FIFTY THOUSAND DOLLARS (\$50,000) FROM THE CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD FOR THE PURPOSE OF IMPLEMENTING THE MODEL SCHOOL PROGRAM.

WHEREAS, The San Francisco Recycling Program will implement a model school program with the assistance of IWMB funding in the amount of \$50,000.

Schools generate a virtually untapped source of organic and other materials that can be recycled. These institutions engage in procurement, materials, and waste management practices that are prime opportunities for development of high volume waste reduction, reuse and recycling programs. Improved materials management and waste management programs in schools and other institutions across the state will contribute significantly to local governments' ability to meet or exceed AB 939 goals.

A partnership between the school districts, local governments and the Board has significant benefits for both partners. School officials and managers are not experts in the management of wastes or mindful of the
