[Urging the University of California San Francisco to reduce its energy consumption through a reduction of night lighting]

Resolution urging the University of California San Francisco to reduce its energy consumption by 10% over the next two years, in part through a reduction of night lighting on its campuses.

WHEREAS, Energy consumption contributes directly to the production of greenhouse gases that cause climate change by heating the Earth's atmosphere; and

WHEREAS, The specter of global climate crisis, energy shortages, and rising sea levels affect the entire earth, including San Francisco, a city with three-fourths of its perimeter surrounded by water from the Pacific Ocean and San Francisco Bay; and

WHEREAS, The University of California San Francisco (UCSF) is the largest employer in the City and County of San Francisco; and,

WHEREAS, UCSF is a recognized leader in the health of San Francisco citizens and all of mankind; and

WHEREAS, UCSF is committed to promoting the highest ethical and environmental standards; and

WHEREAS, UCSF serves as a natural leader and model for the San Francisco community; and

WHEREAS, The loss of dark nights and starry skies due to street lights has a negative aesthetic affect on humans and other animals; and

WHEREAS, Scientific evidence shows that nightlights often do not inhibit crime, according to numerous studies, including those by the School of Criminal Justice at Rutgers University; and

WHEREAS, Numerous school districts have saved energy costs while reducing vandalism by darkening their campuses, including the Spokane School District, the Riverside School District, and the Cupertino Union School District; and

WHEREAS, A recent startling research report suggests that nightlight may play a stimulatory role in environment-associated breast cancer; now, therefore, be it

RESOLVED, That the City and County of San Francisco urges UCSF to begin a program to reduce its energy consumption by 10% over the next two years; and, be it

FURTHER RESOLVED, That the City and County of San Francisco urges UCSF to accomplish this reduction in part by a reduction of night lighting on its campuses.
