13 Section 1. Environmental and Land Use Findings.

14 (a) The Planning Department has determined that the actions contemplated in this  
15 ordinance comply with the California Environmental Quality Act (California Public Resources  
16 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of  
17 Supervisors in File No. 181211 and is incorporated herein by reference. The Board affirms  
18 this determination.

19 (b) On March 7, 2019, the Planning Commission, in Resolution No. 20401, adopted  
20 findings that the actions contemplated in this ordinance are consistent, on balance, with the  
21 City's General Plan and eight priority policies of Planning Code Section 101.1. The Board  
22 adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the  
23 Board of Supervisors in File No. 181211, and is incorporated herein by reference.

24 (c) Pursuant to Planning Code Section 302, this Board finds that this Planning Code  
25 Amendment will serve the public necessity, convenience, and welfare for the reasons set forth  
in Planning Commission Resolution No. 20401, and the Board incorporates such reasons

1 herein by reference. A copy of Planning Commission Resolution No. 20401 is on file with the  
2 Clerk of the Board of Supervisors in File No. 181211.

3  
4 Section 2. Background, Purpose, and General Findings.

5 (a) In February 2018, the Office of Economic and Workforce Development  
6 published “State of the Retail Sector: Challenges and Opportunities for San Francisco’s  
7 Neighborhood Commercial Districts” (the “Retail Study”). Prepared by Strategic Economics,  
8 the Retail Study included briefs studying: the national restructuring of the retail, restaurant,  
9 and personal services industries; the factors required to support successful San Francisco  
10 retail districts; and opportunities, costs, and challenges for retail, restaurant, and personal  
11 services businesses in San Francisco, and the adaptations that businesses are making in  
12 response to changing conditions.

13 (b) The Retail Study identified a national trend in retail stores seeking to experiment  
14 with new strategies to capitalize on increasing consumer demand for experiences, as  
15 opposed to objects. The Retail Study observed that, to remain competitive with e-commerce  
16 businesses, retailers are increasingly seeking to incorporate food and drink sales, events, and  
17 classes into their businesses, and noted a number of San Francisco businesses  
18 experimenting with diverse offerings.

19 (c) While San Francisco possesses many competitive advantages that benefit local  
20 retailers and restaurants, the Retail Study observed that a significant number of neighborhood  
21 commercial districts are experiencing an increase in vacancy rates. The Retail Study also  
22 found that San Francisco businesses face challenges connected to the City’s land use  
23 regulations and permitting requirements, which can add significant cost and time to the  
24 process of opening a new business and may limit retailers’ flexibility to adapt to changing  
25 economic conditions.

1 (d) San Francisco's nightlife and entertainment sector is an integral part of the City's  
2 vibrant commercial corridors. Nightlife and entertainment businesses attract tourists and  
3 residents to the City's diverse neighborhoods. The Retail Study found that nightlife and  
4 entertainment uses complement neighborhood retail sales and services by providing  
5 destinations and gathering spaces for potential retail customers.

6 (e) According to the U.S. Bureau of Labor Statistics, the nightlife and entertainment  
7 sector in San Francisco in 2017 was comprised of 3,715 restaurants, bars, live music venues,  
8 nightclubs, and other performance spaces with 63,695 employees citywide.

9 (f) A 2016 analysis by the Controller's Office found that nightlife generated \$6  
10 billion in consumer spending in 2015. The nightlife sector paid approximately \$80 million in  
11 local taxes in 2015, including \$60 million in sales tax and \$20 million in payroll and gross  
12 receipts taxes.

13 (g) Despite these significant contributions to the local economy, nightlife and  
14 entertainment businesses often face zoning barriers, burdensome permitting requirements,  
15 and duplicative inspections. Legislation to address these challenges will reduce storefront  
16 vacancies, improve the permitting process for small businesses, enable retailers to engage in  
17 creative strategies to attract customers and diversify revenues, and support the health of San  
18 Francisco's commercial corridors.

19

10 needs of neighborhood residents within a short distance of their homes or, within the South of  
11 Market RED Districts, tend to provide jobs and continuation of small scale service and light  
12 industrial activities. These uses tend to be small in scale, to serve primarily a walk-in trade,  
13 and cause a minimum of interference with nearby streets and properties. Accordingly, this  
14 Section recognizes the public advantages of these uses and establishes conditions for their  
15 continued operation.
